Reference: National Tek Servcies, Inc

To Whom It May Concern

I started working with Terry Sharkey before she started National Tek Services, Inc and have been buying from her company since that time. She has always done an excellent job procuring the products we need, expedited when required, and followed up if there were any issues after the sale. She and her company have been one of the best I have dealt with in the past 15 years

Best Regards,

Rick Fullmer
